1 Month	5.15344 pct.	<p>Urgent talks to raise the U.S. debt ceiling appeared to move closer to a deal Thursday, with only seven days to go before the United States faces an imminent threat of debt default. But negotiators warned that the final phase of talks would likely be the most delicate and difficult for both sides.</p> <p>“We’re at a sensitive phase, with sensitive issues that remain. Those sensitive issues are the thorniest issues that we’ve been discussing,” Republican negotiator Rep. Patrick McHenry, of North Carolina, told reporters at the Capitol on Thursday. “Everybody’s trying to do a fine job of figuring out the finer details of this, but nothing’s done.”</p> <p>McHenry said that no face-to-face meetings with the White House negotiating team had been planned for Thursday but that he did not view this as a sign that talks had stalled.</p> <p>“They’ve got work in the White House, we have work here in the Capitol. I don’t know about us physically being together, but there’s alignment on the set of things that we need to work on,” said McHenry. At the White House, President Joe Biden sounded a cautiously optimistic note. “The only way to move forward is with a bipartisan agreement, and I believe we’ll come to an agreement that allows us to move forward and protects the hardworking Americans of this country,” he said Thursday.</p>	<table border="1"> <thead> <tr> <th>FOMC 2022 Meetings</th> <th>FED Rate</th> </tr> </thead> <tbody> <tr> <td>March 16, 2022</td> <td>0.25—0.50</td> </tr> <tr> <td>May 4, 2022</td> <td>0.75—1.00</td> </tr> <tr> <td>June 15, 2022</td> <td>1.5—1.75</td> </tr> <tr> <td>July 27, 2022</td> <td>2.25—2.5</td> </tr> <tr> <td>September 21, 2022</td> <td>3.00—3.25</td> </tr> <tr> <td>November 02, 2022</td> <td>3.75-4.00</td> </tr> <tr> <td>December 14, 2022</td> <td>4.25-4.50</td> </tr> <tr> <td>February 1, 2023</td> <td>4.50-4.75</td> </tr> <tr> <td>Mar 22, 2023</td> <td>4.75 - 5.00</td> </tr> <tr> <td>May 03, 2023</td> <td>5.00 - 5.25</td> </tr> </tbody> </table>	FOMC 2022 Meetings	FED Rate	March 16, 2022	0.25—0.50	May 4, 2022	0.75—1.00	June 15, 2022	1.5—1.75	July 27, 2022	2.25—2.5	September 21, 2022	3.00—3.25	November 02, 2022	3.75-4.00	December 14, 2022	4.25-4.50	February 1, 2023	4.50-4.75	Mar 22, 2023	4.75 - 5.00	May 03, 2023	5.00 - 5.25

Gold	1946.50	<p>The German economy entered a technical recession in the first quarter of this year, as households tightened spending.</p> <p>Data from the German statistics office on Thursday showed a downward revision to GDP (gross domestic product) from zero to -0.3% for the first three months of the year. This comes after Germany recorded a 0.5% contraction in the last quarter of 2022. Two consecutive quarters of negative growth define a technical recession.</p> <p>Europe’s largest economy has been under significant pressure, particularly in the wake of Russia’s invasion of Ukraine and the subsequent decision of European leaders to cut ties with Moscow.</p> <p>According to the statistics office, German households spent a lot less in the first quarter, with final consumption expenditure falling 1.2% over that period, as consumers were reluctant to spend their cash on clothing, furnishing, cars and so on.</p>

“Jordanian Government Curve”		<p>AMMAN — The Kingdom ranked eighth globally in terms of international tourism receipts growth during the first quarter (Q1) of 2023, according to the United Nations World Tourism Organisation (UNWTO). The most recent UNWTO World Tourism Barometer, which regularly monitors global tourism trends, showed that Jordan’s international tourism receipts witnessed a 31 per cent growth during the first three months of 2023 compared with Q1 of 2019. Jordan was preceded by Mauritius, Portugal, Morocco, Turkey, Serbia, Romania and Pakistan which marked a 208 per cent growth, according to the report. Its data also shows that the destinations reporting the highest growth in international tourist arrivals in Q1 of 2023 compared with Q1 of 2019 are Qatar with a 98 per cent growth, followed by Saudi Arabia with a 64 per cent growth and Albania with a 54 per cent growth. “International tourism is well on its way to returning to pre-pandemic levels, with twice as many people travelling during the first quarter of 2023 than in the same period of 2022, UNWTO said in a recent statement. Its report stated that international tourist arrivals reached 80 per cent of pre-pandemic levels in Q1 of 2023. During this period, roughly 235 million tourists travelled internationally, which is more than twice the number of tourists recorded in Q1 of 2022, it noted. “The Middle East saw the strongest performance as the only region exceeding 2019 arrivals [+15%] and the first to recover pre-pandemic numbers in a full quarter,” the report said.</p>
