Finance Your Green Needs Program

Address your supply chain needs with environmentally-friendly financing that supports environmental protection.

Invest in the success of your business in confidence with a financial partner you can rely on. Jordan Ahli Bank is committed to supporting growing of your business through bundle of sustainable solutions. Finance Your Green Needs Program provides you with instant financing allocated to provide the necessary liquidity, through a declining or revolving loan aims to financing sales resulting from the implementation of a contract or agreement related to selling environmentally friendly sustainable goods and services, such as financing the selling and installation of renewable energy, energy saving, heating and cooling, recycling plastic or waste or water, and other contracts related to maintain resources and reduce carbon emissions, in addition to financing the contracts of services companies that helps in transforming to technologies and services instead of paper consumption.

And because we are keen to finance the supply chain of the activity, we also provide within this program specialized loans to finance green purchases that contribute to achieving sustainability, by financing raw materials and goods that are environmentally friendly, like financing the implementation of tender for supply and installation of energy and efficiency systems through contractors and consultants. Our solutions within the program also include letter of credits (LC's) and guarantees (LG's) that are related to the green projects.

My Project Program offers a range of benefits:

- High flexibility with easy predefined terms.
- Financing your business financial gap.
- Competitive interest rates.
- Up to 100% financing.
- Flexible repayment schedule that is aligned with your company's cash flow.
- Access to various preferential rates on the bank's commissions and fees.
- Access to SME advisory services.

*Jordan Ahli Bank terms and conditions apply.
